

## Matrix NRG Instruction Manual

- 1) To charge your speaker, plug USB cable into any computer USB port. Once plugged, the speaker LED would glow red indicating a charge is in progress.
- 2) Upon a successful charger, the speaker LED would glow blue. Unplug the speaker and flip the switch to power the speaker on the LED should glow a solid blue to tell you its ready.
- 3) Uncoil wire from the bottom of the speaker to hook it up
- 4) Not loud enough? Use the buddy system. Hook up several NRG's using the buddy system! Simply plug the speakers together through the 3.5mm audio jack on the side to amp it up.
